In the light of the  moon a little  egg lays on a  leaf.

One **Sunday** morning the warm  sun comes up and - pop! - out of the egg comes a tiny and very hungry  caterpillar.

He starts to look for some  food.

On **Monday** he eats one  apple, but he is still hungry .

On **Tuesday** he eats two  pears, but he is still hungry.

On **Wednesday** he eats three  plums, but he is still hungry.

On **Thursday** he eats four  strawberries, but he is still hungry.

On **Friday** he eats five  oranges, but he is still hungry.

On **Saturday** he eats one piece of  chocolate cake, one  ice cream, one  pickle, one slice of  cheese, one slice of  salami, one  lollipop, one piece of  cherry pie, one  sausage, one  cupcake, and one slice of  watermelon.

That night he has  stomachache!

On Sunday the caterpillar eats one nice green  leaf, and he feels much better.

Now he isn't hungry- and he isn't a little caterpillar. He is a big fat caterpillar.

He builds a small house, called  cocoon.

He stays in the cocoon  more than  two weeks. Then he comes out and he is a beautiful  butterfly!
